SUMMARY

Computer Science graduate with expertise in Python, SQL, AI/ML, and data-driven solutions. Completed projects in intelligent assistant systems and survival prediction modeling, demonstrating hands-on experience in machine learning, data analysis, and software development.

SKILLS

Programming languages	Python, SQL, Data Structures and Algorithms (DSA)
AI & Machine Learning	supervised and Unsupervised Learning, Basic Generative AI (Prompt Engineering in Vertex AI)
web development	HTML, CSS and Javascript
Databases	MySQL

PROJECTS

Project Title: G.A.I.A (GESTURAL AND AUDITORY INTELLIGENT ASSISTANT)

Team Size: 1 **Duration:** 5 Months

Description:

Gestural and Auditory Intelligent Assistant is an AI-Powered desktop assistant that responds to both Voice Commands and hand gestures for seamless control.

Responsibilities:

- Engineered an intelligent assistant supporting 15+ system tasks using voice and gesture recognition.
- Implemented rule-based logic for decision-making, enhancing system reliability and accuracy in gesture recognition.
- Enabled online real-time functionality with average response time under 2 seconds.
- Tested and validated 3 core modules (speech processing, gesture interpretation, real-time automation).

Environment:

- Languages: Python
- Libraries & Tools: OpenCV, Pyttsx3, SpeechRecognition, Pandas, NumPy, Matplotlib
- Platforms: Jupyter Notebook, VS Code

CERTIFICATIONS

Internship - Artificial Intelligence and Machine Learning (AI/ML)

- Developed a machine learning model to predict passenger survival using features like age, gender, ticket class, and fare, achieving 80% accuracy.
- Performed data preprocessing and exploratory data analysis (EDA) improving model reliability and uncovering key survival trends.
- Applied and fine-tuned supervised learning algorithms (Logistic Regression, Random Forest, Decision Trees) with hyperparameter optimization.

Prompt Design in Vertex AI – Google Cloud Skill Badge (Introductory)

Focused on applying prompt engineering techniques within Google Cloud’s Vertex AI for Machine Learning and AI solutions

EDUCATION

Master of Computer Applications, Andhra University	CGPA: 8.5	2023 - 2025
Bachelor of Computer Science, Prism Degree College	CGPA: 8.0	2021 - 2023
Board of Intermediate AP, Narayana Junior College	CGPA: 9.0	2018 - 2020
Secondary School Certificate, Narayana School	CGPA: 10.0	2017 - 2018
